

AP Chemistry Equation Writing Quiz 1 Study Guide

- 10 Net ionic form Precipitate (ppt) reactions- know solubility rules to complete these
 - Not on acid, bases yet (strong, weak)
- 1 Dilutions: $M_1V_1 = M_2V_2$
- 1 Molarity and making solutions
 - Molarity
$$M = \frac{\text{moles of solute}}{\text{liter of solution}}$$
- 1 problem like titration lab calculations – double-replacement acid-base reaction
